

Hoover SB 374

Testimony of James M and Emily J. Hoover
51 Springfield Road, Stafford Springs, CT

Gentlemen:

We are going on record as being against S B 374.

No one has the right to force children to have psychological evaluations that are against the will of their parents and possibly unnecessary. In a time of austerity, why would a responsible Government want to increase costs?

This bill may violate [Connecticut's HIPAA privacy law](#). What does the government intend to do with these assessments? If a child gets a "bad" assessment, the state is empowered to do...what, exactly? What will the test be? How will it be administered? These and other questions remain unanswered by S.B. 374.

James M. Hoover
